

Literacy Blocks

(Phonological Awareness Groups)

Does your child have difficulty with spelling and reading in the classroom?

Literacy Blocks is a small group program that uses a variety of fun and energizing activities to develop children's phonological awareness which is the basis for reading and spelling.

The group will target the following common areas:

- Identifying sounds in words
- Spelling words
- Word Attack strategies
- Identifying sight words

Your child will benefit from attending the group program during the holiday period as they will not have the additional homework and frustrations of school to manage at the same time. This will allow your child to focus solely on the aim of improving literacy skills.
